Why do we have computers? Because we play games and Google

How is snow made? With white and ice

What's your favourite musical instrument? A guitar

Where does a rainbow go? Into the clouds

Why are some people happy with very little, while others are miserable in paradise? While travelling and working in several different countries, award-winning local author Janet Poole found herself on a mission to solve this human mystery.

# The key to happiness

**CONTRIBUTED**

JANET, who lives on a property near Oberon, has spent a lifetime avidly studying people and their behaviour and reading widely, to compile her debut book *'How to Get Anything You Want—Just Like That!'*

This Saturday, the 4th of August, Janet will be holding a book signing at 'Earth, Spirit, Nature' on Anson Street between 10.30am and 2pm.

"The book was created to be a one-stop resource for understanding life," Janet explained. "I want people to realise that an extraordinary person is not someone else—it's you."

Janet's findings have been described as liberating and empowering. "This book is about you deciding the direction of your own life," she said.

Janet believes scientific evidence proves that we are so powerful that every day we are each creating our own world.

"It is our choice to either wreak havoc

in our lives or create anything we want just as easily. Most still believe in luck and fate, and think they have no choice over how their life turns out."

Janet said many people will find her book helpful, particularly "Somebody who is bored or frustrated with life is not living their own dreams."

■ **'How to Get Anything You Want—Just Like That!'** is available at Boomers Books and Collins Booksellers. You can also download the first 3 chapters for free at [www.janetpoole.com](http://www.janetpoole.com)

## KIDS speak

**Question:**  
How do you build a house?

**School:**  
Waratah's Early Learning Centre

**SAMUEL • 4**

CLASS: PRE-SCHOOL ROOM

First you put the wall on, so you can easily put the roof on, then the floor. You need cement so the bricks don't fall down... you can only do it with bricks.

**LAUREN • 4**

CLASS: PRE-SCHOOL ROOM

You get some wood, cement and bricks, and then put the roof on. You paint the house brown.

**WILL • 4**

CLASS: PRE-SCHOOL ROOM

With sticky tape and blocks. You get a picture, cut it out, and blow it up like a house balloon, with the picture of the house stuck on the house balloon.

**THOMAS • 4**

CLASS: PRE-SCHOOL ROOM

The walls have wood, there is a roof, and the floor is wood. You need carpet, and windows. I would paint my house red and green.
